Education

CHRIST (Deemed to be University) — Bangalore, Karnataka
Master of Computer Applications — *July 2025 – Present*

LN Mishra Institute of Economic Development and Social Change — Patna, Bihar
Bachelor of Computer Applications, CGPA: 8.47 — *July 2021 – May 2024*

Projects

Civitas – Civic Issue Reporting & Analytics Platform | *React, Node.js, MongoDB, JWT* — Source Code

- Developed a full-stack platform for citizens to report and track local civic issues such as sanitation and infrastructure.
- Implemented stateless authentication using JWT for secure user login and protected routes.
- Designed RESTful APIs using Node.js and MongoDB for efficient data storage and retrieval.
- Built interactive dashboards using Chart.js to visualize issue trends and analytics.

ProdTrack – Inventory & Product Tracking System | *React, Go, JWT, bcrypt* — Source Code

- Built a full-stack inventory management system to track products and stock levels in real time.
- Implemented secure authentication using JWT and password hashing with bcrypt.
- Designed scalable RESTful APIs in Go for efficient data processing and backend performance.
- Developed a responsive React frontend for seamless user interaction and usability.

Hospital Management System – Command-Line Application | *Java, MySQL, JDBC* — Source Code

- Developed a command-line application to manage hospital operations including patients, doctors, and appointments.
- Integrated MySQL database using JDBC for efficient CRUD operations and persistent data storage.
- Designed a relational database schema to handle patient records, doctor information, and scheduling.
- Built a menu-driven interface to streamline navigation and user interaction.

Experience

Frontend Intern — Jan 2024 – Mar 2024
Rays Edutech — *Remote*

- Developed and maintained responsive web pages using HTML, CSS, and JavaScript.
- Assisted in developing and testing web features.
- Worked with team members on debugging and improving code quality.

Technical Skills

Languages: Java, Python, C, C++, JavaScript
Frameworks & Libraries: React.js, Next.js, Tailwind CSS, Pandas, NumPy, Matplotlib
Backend & APIs: Node.js, Express.js, JWT Authentication
Databases: MySQL, SQLite, MongoDB
Developer Tools: Git, GitHub, VS Code, Power BI, Excel

Certifications

Mastering MySQL – Udemy (Uday Academy)

Introduction to MongoDB – MongoDB University

Intermediate Python – DataCamp

Intermediate Python – DataCamp

Python for Data Science – Infosys Springboard
